

Extend Microsoft 365 Copilot in Copilot Studio

Course MS-4022

Open enrollment: 4 hours

Skills-based instructor-led training course description

This course examines how to build agents that extend Microsoft 365 Copilot with additional knowledge and capabilities.

What you learn: Find out how to use Copilot Studio to build agents, add knowledge, add actions, and publish agents to Microsoft 365 Copilot.

Audience profile

This course is designed for low-code developers who are interested in using Copilot Studio to build agents. Learners should be familiar with Microsoft 365 Copilot.

Agenda

- Introduction to declarative agents for Microsoft 365 Copilot
- Build your first declarative agent for Microsoft 365 Copilot by using Copilot Studio
- Introduction to actions for declarative agents in Copilot Studio
- Extend declarative agents with prompt actions in Copilot Studio
- Extend declarative agents with connector actions in Copilot Studio
- [View full course agenda online](#)
